

## Dr. Tilden Now Seeing Patients at Arrowhead & Sonoran Offices

Desert West welcomes our newest provider -- Hannah Tilden, DO -- who is accepting new patients at the Arrowhead & Sonoran offices. A graduate of the Arizona College of Osteopathic Medicine -- Midwestern University in Glendale, she completed her residency at the Arrowhead Regional Medical Center in Colton, California. With a special interest in women's preventive care,

high-risk obstetrics, contraception and minimally invasive surgery, Dr. Tilden is passionate about developing a true partnership with her patients.

Outside of the office, Dr. Tilden enjoys hiking, gourmet cooking and baking, and spending time with her husband and family.

## New Delivery Option for North Valley Expectant Parents

Desert West OB/GYN will soon be delivering close to home for those in the far north Valley. Our Sonoran office at 33423 North 32nd Avenue #2200 in Phoenix has teamed with HonorHealth Sonoran Crossing Medical Center -- which opens its obstetrics services in the weeks ahead.

The office features premier OB/GYNs with new patients scheduled within a week. We offer full-service women's care including maternity health and are delighted to be on-site when your new addition is ready to make an entrance.

## Knowledge is Power Against Human Trafficking

The stories are devastating. Each year, tens of thousands of people -- the majority of them children -- become victims of human trafficking. Defined as the illegal movement of people, typically for the purposes of forced labor or sexual exploitation, it is described by the Department of Homeland Security as a modern-day form of slavery.

While the team at Desert West OB/GYN learns more in an effort to detect and assist those who come through our doors, we want to help educate our community on what is becoming one of the fastest growing crimes in the world.

Multi-layered and complex, human trafficking is second only to drug trafficking as the most profitable form of transnational crime. Traffickers use force, fraud, or coercion to lure their victims and force them into labor or commercial sexual exploitation. Local and national organizations are working hard to remove victims from their bondage and provide education and support in starting their new lives.
